

Penny Power -Where do the coins go?

People everywhere have a right to

enough food
to live active,
healthy lives.

**Your small change
will help
Mennonite Central
Committee enable
people to feed
themselves over the
long term.**

MCC may provide water for drinking and irrigation in some parts of the world, or tools, seeds and fertilizer in other parts. Volunteers may teach soil management, crop variety selection and livestock care to improve food production.

MCC also teaches peace and reconciliation so people can plant and harvest in safety.

**Can you spare a little change
to make a big change?**
